LC3 DAY 2025 – OMAN 2nd December 2025

We are delighted to announce that LC3 Day 2025 will take place in Oman on 2nd December 2025, bringing together experts, researchers, and industry leaders to explore the future of sustainable technologies in Calclined Clay and application.

This Oman's event is even more special, featuring two additional activities:

DECEMBER 1, 2025: PRE-CONFERENCE COURSE

A one-day intensive workshop hosted at the German University of Technology in Oman (GUtech), offering deep insights into LC3 / LC2 and its applications.

DECEMBER 2, 2025: LC3-DAY MAIN EVENT

DECEMBER 3, 2025: SITE VISIT

Post-Conference Site Visit An exclusive tour to the first Calclined Clay Factory in the Middle East, located in Sohar—a unique opportunity to witness cutting-edge sustainable production in action.

Join us for this milestone event, where innovation meets tradition in advancing low-carbon construction solutions.

The cover image depicts Bahla Fort, the oldest Omani fort constructed using traditional Sarooj mortar. Its origins trace back to the pre-Islamic era (before the 7th century CE), with major expansions during the 13th–17th centuries under the Nabhani dynasty. Recognized as a UNESCO World Heritage Site (1987), Bahla Fort stands as a testament to Oman's mastery of Sarooj-reinforced earthen architecture and ancient engineering.
